

Richard Kwame Appiah

IT STRATEGY DELIVERY · PROGRAM EXECUTION · STAKEHOLDER & PERFORMANCE MANAGEMENT

Accra & Takoradi, Ghana Richard.k.appiah.ca@gmail.com +233 508 997 295 English · Twi · Fanti

PROFESSIONAL SUMMARY

IT delivery and governance professional with 9+ years supporting technology solutions execution across financial, telecommunications, and critical-infrastructure environments. Experienced coordinating cross-functional stakeholders, tracking initiative milestones, managing vendor delivery, and producing executive-ready performance and remediation reports. Background includes Bank of Ghana technology operations, multi-country project delivery across Ghana, Nigeria, and Tanzania, and analytics-driven compliance tracking for large-scale infrastructure programs. Brings strong communication skills, risk remediation discipline, and a practical ability to translate technology initiatives into measurable business outcomes.

CORE COMPETENCIES

Strategy & Delivery	Initiative tracking · Milestone monitoring · Vendor coordination · Tool/application integration · Benefits-focused reporting · Process improvement
Stakeholder Mgmt	Cross-functional collaboration · Executive reporting · Workshop/training facilitation · Multi-country engagement · Business-to-technology communication
Performance & Risk	Trend analysis · KPI/reporting support · Risk assessment · Remediation planning · ISO/IEC 27001 governance · Compliance tracking
Program Support	IT solutions delivery · Migration readiness · Documentation · PMO-style milestone follow-up · Matrix-organization coordination

PROFESSIONAL EXPERIENCE

Senior Systems & Applications Specialist / Data Center NOC Support

Jan 2023 – Present

Bank of Ghana (FICSOC) – Virtual InfoSec Africa · Accra, Ghana

- Support execution of technology initiatives by coordinating tool/application integrations and aligning delivery with operational priorities.
- Track incident and performance trends; produce documentation and reports for review, escalation, and continuous improvement.
- Coordinate vendors and contractors on equipment delivery and installation to help meet milestones, schedules, and site requirements.
- Collaborate with technical and operational stakeholders during escalations to protect service continuity in a regulated financial environment.
- Maintain operational and security procedures; identify improvement opportunities through monitoring data and execution reviews.

Penetration Tester / External IT Audit Representative

Jul 2019 – Nov 2022

Sophies Group · Ghana, Nigeria & Tanzania

- Delivered assessment and remediation programs across multiple countries in a multinational delivery model.
- Produced executive-ready reports and prioritized remediation plans to support stakeholder decision-making and follow-through.
- Supported systems migration readiness by validating controls and coordinating technical validation across project milestones.
- Conducted periodic control reviews and recommended changes to align technology posture with business objectives.
- Facilitated stakeholder engagement by training 60+ staff; evaluated execution risks and recommended remediation actions.

Equipment Audit / Commercial Representative

Mar 2021 – Mar 2022

Helios Towers Ghana

- Generated analytics reports across 500+ tower sites to support operational improvement and stakeholder decisions.
- Developed risk mitigation and compliance trackers to monitor initiative progress, issues, and follow-up actions.
- Supported contract verification and commercial data management; partnered with engineering on performance reviews.

IT Support

Sep 2017 – Sep 2018

GRIDCo (Ghana Grid Company Limited)

- Delivered IT solutions support in a critical-infrastructure environment; supported rollouts, patching, and continuity activities.

IT Support (MIS)

Mar 2016 – May 2016

Volta River Authority

- Maintained MIS reporting systems; supported inventory, documentation, and equipment deployment activities.
